agrees that IPO activity is too low, it's also important to keep in mind

Tag, task, comment, share and index Web or intranet pages

Install the TeamPage extension for Internet Explorer, Firefox, Chrome, or Safari. As you navigate the Web, a red number on the TeamPage icon shows the count of TeamPage actions linked to that page.

Click the TeamPage icon to share the page with others, or see the TeamPage comments, tags, and tasks that've already been added.

TeamPage automatically indexes the content of each shared Web page so you can find and re-open it, or find associated social actions using TeamPage search.

Add a TeamPage badge to Web pages to comment, tag, task or share it using TeamPage

The TeamPage Badge shows a count of TeamPage social actions associated with that page. Choose a one-button or four-button style Badge.

Click the Badge to see the associated actions in context for easy review or followup, or add a new comment, task or tag.

You can also add a TeamPage widget to show or add comments stored in TeamPage, but shown on your page (like Disqus).

Add one line to your HTML page to insert a TeamPage Badge or widget.

The screenshot shows a web browser window displaying the 'Products' page of Traction Software. The page features a navigation menu with options like 'HOME', 'PRODUCTS', 'USE CASES', 'BUY', 'CUSTOMERS', 'COMPANY', 'NEWS', 'BLOG', and 'CONTACT US'. A 'TeamPage' badge is visible on the page, showing a count of 19 actions. Below the badge, there is a section titled 'TeamPage Discussions' with 10 comments. The comments are from users like 'Mr. Prez' and 'Jordan Frank', dated between June and August 2011. The page also includes a search bar, a 'My Account (grl)' link, and a 'Server Setup' link. The browser's address bar shows the URL 'http://traction.tractionsoftware.com/products'.

Mirror, Mirror: Toed-shoes for kids
When it comes to summer, kiddie fashion usually means bright colors – pinks, yellows, blues, and greens – combined with high-tech durability for running, tumbling, and swimming. That is why I predict
